## \*NSC Declassification/Release Instructions on File.\*

2 February 1948

MEMORANDUM FOR LIEUTENANT GENERAL S. J. CHAMBERLIN

Subject: Proposed MSCID No. 7

Reference: (a) Memo from Gen. Chamberlin to Adm. Hillenkoetter, dated 27 January 1948

- 1. The suggestions in the above reference have been noted, but it is thought that present circumstances outweigh future contingencies. These MSCID's are drawn up to establish present procedures. They are not irrevocable, and, in the normal course of events, many of them will have to be changed.
- 2. All other IAC agencies have approved of the proposed MSGID 7 without change, so your vote of concurrence in your paragraph 4 of the above reference has been recorded.
- this Directive, or any other MSCID or DGI directive, is found in practice to be deficient or impractical on the working level. I shall be glad to receive advice thereon with a view towards having corrections made.

R. H. HILLENKOETTER
Rear Admiral, USN
Director of Central Intelligence

cc:

Director ICAPS (2) — Executive Registry Central Records
